KIM KNOX BECKIUS is the author of five books on travel in New England and New York State and a weekly writer for About.com's Guide to New England Travel.

WILLIAM H. JOHNSON is a native New Englander whose work has been published in magazines, books, calendars, cards, puzzles, and advertising.

THE HISTORY OF NEW ENGLAND—INDEED, THE HISTORY of the United States—can be experienced firsthand by visiting the homes and estates of the region's most notable residents. From presidents and war heroes to icons of American literature and the arts, the grace and grandeur of these homes offer a glimpse into the lives of the men and women who shaped our nation.

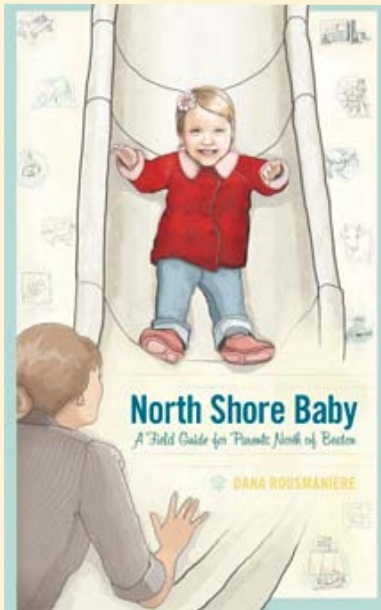

In *New England's Historic Homes & Gardens*, Kim Knox Beckius and photographer William H. Johnson breathe life into the history of the region's thirty-six most important, influential, and picturesque homes, from the earliest homesteads of the 1600s through the Gilded Age mansions of the early twentieth century.

The result is a detailed study of the architectural features, landscape elements, and ingenuity that make these homes stand out as stunning examples of classic American style.

UNDER CAPE COD WATERS

ETHAN DANIELS

PHOTOGRAPHY/NATURE
 Hardcover
 12 x 10 in
 152 pages
 Full-color photographs
 ISBN-13: 978-1-934598-05-4
 ISBN-10: 1-934598-05-4
 June 2010
 \$35.00 US

IN *UNDER CAPE COD WATERS*, AWARD-WINNING photojournalist Ethan Daniels captures the mystery and importance of the often overlooked natural communities along the Cape Cod coast. The Cape's near-shore waters are both diverse and productive, making these coastal ecosystems as dynamic and prodigious as any along the Atlantic shoreline.

With the trained eye of a scientist and the sensibilities of an artist, Daniels photographs the resilient life forms that play such a vital role in maintaining the health and wellbeing of this cherished peninsula.

The result is a stunning portrait of a world often only seen from the surface. In the hazy, dark waters, Daniels reveals the vivid rhythms in detail: the arresting orange of a sponge, the silvery flash of fish scales, the bright blue of a crab claw. With chapters devoted to each of the Cape's aquatic ecosystems—the salt marsh, the bay, the open ocean, and freshwater ponds—Daniels at once enlightens and educates us about the treasures hidden amidst this mesmerizing seascape.

ETHAN DANIELS is an award-winning photo-journalist. His photography and journalism have appeared in *Scuba Diver Australasia*, *Cape Cod Life*, *Underwater Photography Magazine*, and *Sport Diving Magazine*, among other publications. He lives in Berkeley, CA with his family.

"This is a beautifully designed and printed book, both elegant and informative."

Stephen Frink | *Alert Diver Magazine*

"As a New Englander and a native to many of the coastal habitats featured in this book, I was drawn to these wonderfully familiar yet surprising images ... Read this book and you'll see why I covet this precious place and call it home."

Jeff Corwin, Naturalist and TV presenter for Discovery Networks and NBC
